Planters that pop!

Reduce, Re-use, Recycle... Why not up-cycle instead?

From tin cans to old tyres, cartons to colanders there are so many items that will add a flair to your flowers beds. You can reduce your waste and help those precious pollinators too!

So have a rummage in that recycling and pull out those paints... let's see what marvelous creations you can make!

You will need:

- A grown up to help
- Paints - acrylic are best
- Paint brushes
- An item to upcycle
- A little **Imagination**

Top Tip! When painting tin cans, stick a bit of masking tape around the inside of the rim to protect your fingers from any sharp edges.
